

NORWAY NEEDS ENGINEERS

The Norwegian Public Employment Service NAV and its European recruitment service EURES (www.eures.no/english) is recruiting technical engineers, on behalf of Norwegian companies in the oil and gas industry and in shipping.

ARE YOU AN **ENGINEER** IN ONE OF THE FOLLOWING FIELDS?

- | | | |
|-------------------|--------------------------|------------------------------|
| ▪ Automation | ▪ HVAC | ▪ Pipeline and umbilicals |
| ▪ Cybernetics | ▪ Machine and rotating | ▪ Process (petrochemistry) |
| ▪ Electronics | ▪ machinery | ▪ Risers |
| ▪ Instrumentation | ▪ Materials | ▪ Safety and environment/HSE |
| ▪ Drilling | ▪ Mechanical engineering | ▪ Steel structures |
| ▪ Electrical | ▪ Mechanical design | ▪ Subsea |
| ▪ Flow assurance | ▪ Marine technology / | ▪ Welding |
| ▪ Geosciences | ▪ Naval architecture | ▪ Wind power |
| ▪ Hydraulics | ▪ Piping / Pipe design | |

NB: most of the vacancies in the oil sector are ONSHORE and very few OFFSHORE

The companies require:

- an engineer diploma (Bachelor or Master's degree)
- some work experience in the engineering field
- a very good command of English (written and spoken)

The companies offer:

- good working conditions
- long term contracts or project contracts
- career development

Please register your CV in the EURES Norway CV database:

https://www.webcruiter.no/wcmain/cvlogin.aspx?company_id=213140

We encourage you to register your data as detailed as possible, and if possible, to indicate 1 or 2 referees, with name, position, company, phone number or e-mail (NB: the referees have to speak English). Registration is free of charge.

Your CV will be forwarded to employers, who will contact you directly if they find your qualifications relevant.
